

12th International Melanoma Pathology Symposium
Grand America Hotel
Salt Lake City, Utah USA
Wednesday, November 20, 2019 8:00 AM to 5:00 PM

8:05	Raymond Barnhill	Introduction
8:10	Marcus Bosenberg	Melanocytic nevi and melanoma: unraveling a complex relationship
8:30	Christopher Shea	Epigenetic markers in melanocytic pathology
8:50	Alexander Lazar	The microbiome and melanoma: An update
9:10	Arnaud de la Fouchardière	RNAseq clustering of atypical melanocytic tumors
9:30	Iwei Yeh	Spitz versus spitzoid melanoma
9:50	Coffee Break	
10:20	Loren Clarke	"Intermediate" melanocytic tumors
10:40	Armita Bahrami	Pediatric Spitz melanoma with MAP3K8 fusion or truncation
11:00	Daniela Mihic-Probst	Transdifferentiated/dedifferentiated melanoma
11:20	Martin Mihm	Unusual variants of vertical growth phase
11:40	David Elder	Classification of dysplastic nevi: An update
12:00	LUNCH	

1:00	Raymond Barnhill	Histopathologic growth patterns in melanoma liver metastases
1:20	Gilles Landman	Mutational heterogeneity in acral melanoma
1:40	Lyn Duncan	BAP1 mutant cutaneous melanocytic tumors
2:00	Claire Lugassy	Extra-vascular migratory metastasis: an embryogenesis-derived mechanism of tumor spread
2:20	Sook Jung Yun	Acral melanoma : Angiotropism-associated metastasis
2:40	Coffee Break	
3:10	Jane Messina	Updates on the pathology of the sentinel lymph node
3:30	Pedram Gerami	Pigmented epithelioid melanocytoma: An update
3:50	Birgitta Schmidt	Congenital nevi: New observations
4:10	Michael Tetzlaff	Pathologic assessment of neoadjuvant treated melanoma
4:30	Richard Scolyer	Nevoid melanoma
